

Number Tracing Warm-Up

Five minutes of pencil control before the puzzle

Do this page first with younger children. Confident number formation is what stops a dot-to-dot ending in frustration.

– 1 · Trace and continue

WRITE EACH NUMBER THREE TIMES INSIDE THE BOX

01	02	03	04	05
06	07	08	09	10

– 2 · Count on

3					
7					
12					
18					

– 3 · Straight-line control

Draw a single straight line from each dot on the left to the matching number on the right — no ruler, one smooth movement.
